The New York State and Local Retirement System (NYSLRS) has a new way for you to check your retirement information. *Retirement Online* gives NYSLRS members and retirees a convenient and secure way to review your benefits and manage your account in real time.

With *Retirement Online*, you can view your benefit information, update your contact information, and view or request an update to your beneficiaries. Active members will be eligible to apply for a loan, and retirees can create their own income verification information.

In many cases, you'll be able to use *Retirement Online* instead of sending forms through the mail or calling NYSLRS. And it's safe to use- NYSLRS has incorporated several security measures similar to those used by financial institutions.

NYSLRS is committed to providing you a safe and secure experience. When registering, you'll be asked a series of questions to verify your identity. The questions are provided by a trusted third-party source, and NYSLRS does not store the questions or your answers. It is recommended you use *Retirement Online* with Internet Explorer.
