We are here

At Lansing CSD, our Lansing Mental Health and Counseling Department provides academic, social, and emotional support, as well as academic and career planning consultation in individual and small group settings.

We provide

- Counseling and advising
- Consulting with parents, teachers, and administration to help students reach their potential academically and personally.
- Communication with important people in students lives, through telephone contact, email, and letters home.

We can help parents by...

- Providing a professional and safe atmosphere to share concerns about your child.
- Supporting communication between parents, teachers, and administrators.
- Referring students for services outside of the school, such as counseling, recreational opportunities, and community based experiential learning opportunities.

Parents can help their child by...

- Encouraging their child to seek help with personal or academic challenges.
- Encouraging their child to explore interests and self-advocate when possible.
- Contacting teachers if your child is experiencing personal and academic difficulty.
- Communicating with mental health team to discuss academic challenges and other issues interfering with learning.
Community & Emergency Resources

If your situation is an emergency, call 911.
